

## Pricing Guide

### Important Information

- Refer to the below "brands chart" to determine which pricing category your item falls in.
- This pricing list contains average re-sale prices and should be used as a guide when pricing your items.
- These pricing suggestions are for reference purposes as it is ultimately up to how you price your items.
- We do suggest you stay within range of the suggested re-sale prices to ensure your items sell quickly.
- Consider allowing all or most of your items to be discounted on reduced price days (i.e., 25% off/50 % off).
- Always consider an items condition when pricing. Select your best items and price accordingly.
- Prices vary and will increase slightly as the size increases, i.e., infant, toddler, tween, juniors, woman's, etc.
- Try to price hanging clothing items at \$3.00 or higher. Lower priced items should be bundled to equal \$3.00.
- Items should be priced in 1.00 and .50 cent increments, i.e., \$2.00, \$2.50. Prices should not end in, .25/.99, etc.
- Large Toys, Outdoor Toys, Little Tykes, etc., are usually priced 30% (or higher) of retail.
- Clothing items that are "NWT (new with tags)" can be priced slightly higher.

Brand and Condition should be considered when pricing in any of the categories below.

Items in original box and with user manuals increase value and helps items sell faster.  
 If you have misplaced your user manual, you can visit the manufactures website to print a copy.  
 Items should be checked for safety recalls prior to reselling.
